NATIONAL SUN YAT-SEN UNIVERSITY

Regulations for Internet Network in Student Dormitories

Approved by the 2nd Administrative Meeting on September 29, 2010, 1st Semester of School Year 99.

I. This set of regulations is specifically issued for sufficient utilization of on-campus Internet functions, implementation of appropriate use of Internet resources, and efficient management of student dormitory Internet network. The regulations are in accordance with "Regulations Internet Network Use on Campus " of the university.

II. All student residents who use dormitory Internet shall prepare personal computers, network card (RJ-45 interface), and UTPs (Unshielded Twisted Pair). Use Internet resources shall be in accordance with the IP addresses announced by the Office of Library and Information Services.

III. In cases of any of the following conditions being investigated and evidenced, not only the penalties of relevant regulations will be carried out but also suspensions of rights to access will be implemented.

    A. Transmitting threatening, indecent, commercial, or unfriendly data.

    B. Spreading viruses or intruding unauthorized computer systems.

    C. Mass transmission of mails or mass scanning for different hosts.

    D. Using or transmitting any unauthorized files.

    E. Intentionally damaging or inadequately using network equipment.

    F. Building adverse illegal or porn websites.

    G. Using others' IP network addresses.

    Applications for resumes of rights to access are available after suspensions due to above reasons have been removed.

IV. In order to remain Internet network accessibility, network traffics shall be separated and controlled adequately in accordance with "Taiwan Academic Network Management and Regulations". A user with daily upload traffic of 6G and above (excluding on-campus inter-transmissions) is subject to an immediate suspension of rights to access for seven days.

V. Failures of student dormitory Internet networks shall be reported, and maintenance shall be applied by visiting the website of the Office of Library and Information Services for "Sun Yat-Sen University Dormitory Network Repair System." The duty personnel will respond to

requests of maintenance as soon as possible after receiving repair application forms.

VI.   Management and operation of student dormitory Internet network is governed by the Office of Library and Information Services of the university.

VII.   For inadequate and unmentioned matters of this set of regulations, please refer to "Ministry of Education Regulations of On-Campus Internet Network Use", "Taiwan Academic Network Management and Regulations," and regulations of the university.

VIII.   This set of regulations shall be implemented following approvals of administrative meetings and the authorization of the president. The same procedure shall be carried out when amendments are to be made.
