計分標準 Scoring Criteria：

1. 於本系就學期間發表之期刊及研討會論文並以國立中山大學機械與機電工程學系具名，且與本系指導教授共同發表方可認列。

Journal and conference papers published during the study period in the Department of Mechanical and Electromechanical Engineering at National Sun Yat-sen University, credited to the department, and co-authored with the supervising professor will be recognized.

2. 除指導教授與共同指導教授外，學生作者排名順序：第一作者*1、第二作者*0.6、第三作者(含)之後*0.3，計算至小數點後一位。以上計算通用於發表 SCIE 論文以及發明專利，一篇論文適用於一個類別。

Aside from the supervising and co-supervising professors, the ranking of student authors is as follows: first author *1, second author *0.6, and third author (and subsequent) *0.3, calculated to one decimal place. The above calculations apply universally to SCIE publications and invention patents, with each paper applicable to one category.

3. EI 期刊論文、國內外研討會需為第一作者，單一類別至多採取兩篇加分計算。

For EI journal papers, domestic and international conferences, the student must be the first author, and each category will only count two articles towards the total score at most.

4. 如期刊論文獲得轉投稿，篇名不同則視為兩篇；若同篇名則視為同一篇，計分以擇優認定。

If a journal paper is accepted for resubmission or transfer with a different title, it will be considered as two separate papers; if the title is the same, it will be regarded as the same paper, and scoring will be determined based on the better outcome.
